THE STORY BEHIND OUR LOGO

THE VALLEY PERSPECTIVE

Physical mountains often define the natural boundary of a valley. The Strong Valley logo is drawn from the perspective of fields in the foreground and mountains in the distance. This mirrors Strong Valley's belief that making the right near-term decisions derives from clarity about long-term goals.

THE MOUNTAINS

The blue color of mountains signifies trust, dependability and strength which are also reinforced through the mountain shape itself. Triangular peaks help to emphasize the characteristics of stability, professionalism, strength and efficiency.

The mountains are also representative of nearby Yosemite National Park. Which, beyond its regional location, Yosemite, along with other national parks, symbolize how commitment to preservation enables an enduring legacy for generations to come. Collectively these ideas represent Strong Valley's goal of supporting clients in their wealth preservation and in leaving their own legacy. The imagery also serves as a reminder that our decisions today shape our future – not just our own, but for those who come after us.

THE OPEN CIRCLE

Orange is used to express traits such as friendliness, sociability, and confidence. Just as mountains help define physical valleys, the orange circle sets distinct boundaries that encompass Strong Valley's ideals, which set them apart from others. Yet, like the open circle, Strong Valley is welcoming to all who share our ideals and goals.

THE FIELDS

Green symbolizes ideas of freshness, growth, and nature. The smooth rolling hills and crop rows are a nod to the vast agribusiness culture in the Central Valley and home to Strong Valley's Fresno, CA headquarters.

The fields also carry a deeper meaning. Known for their hard work and resilience, during planting, cultivating, growing, and harvesting, farmers must be prepared for unexpected storms, shifting seasons, and sudden changes in market prices. Like you, they must be prepared for many things outside of their control.

Strong Valley largely serves individuals, families, and businesses whose wealth has come through hard work. Our goal is to help our clients plan for the unexpected, while preserving the fruits of their labor, regardless of where they are on their journey or life cycle.

THE ROUND DESIGN

Circles may be used to signify relationships, continuity, and endurance. The overall circle shape of its logo symbolizes Strong Valley's commitment to long-term relationships with our clients and community partners.

Strong Valley Is Not Just A Place, But An Ideal.

Strong Valley is headquartered in Fresno, in the heart of California's Central Valley, near the geographical center of the state itself. Fresno is centrally located between San Francisco and Los Angeles, less than 80 miles from three major national parks (Yosemite, Sequoia, and Kings Canyon) and only a short distance from the beautiful California coast.

The ideals of Strong Valley transcend geography. Coordinates do not define our borders; a diverse group of clients and networks of professionals in many different locations do. We are a community of people committed to shared values and guiding principles, principles that shape not only how we conduct business, but why we are in business, and those we serve.

In 2000 the National Civic League named Fresno, the only city in California, as an All-American City. This prestigious award annually selects just ten cities across the nation as "models of problem-solving and community-building" and "the potential within every community to tackle tough issues and create real change." Strong Valley carries with it these ideals and sentiments.

A Journey Guided By Core Principles.

Strong Valley is on a journey to change how personal and business wealth management is done. We are committed to innovation that focuses on the client experience in every aspect of our business and adhere to proven principles, well-defined laws, and safeguards. We embrace an attitude of continual learning, with the implementation of the latest tools and technology to serve our clients better. This is not creating change for its own sake; instead, it is transforming intentionally to create a real and meaningful difference in our clients' lives.

- **We believe** making the right near-term decisions comes from clarifying long-term goals and measurable outcomes.
- **We believe** integrity, transparency, and excellent service should guide every aspect of a client's journey and experience.
- **We believe** long-lasting relationships are built on a foundation of trust and forged over time by walking in-step and shoulder-to-shoulder with our clients.
- **We believe** that service is about serving others – it goes beyond regular business; it means doing things that have meaning and purpose while inspiring others to do the same.
- **We believe** that these enduring values and principles, when executed to their fullest potential, will lead to growth, strength, security, and a lasting legacy – not only in business but in life.

Welcome to Strong Valley – We're Glad You're Here.

We created Strong Valley to build a community of clients and a network of partners devoted to building on the foundation of these enduring philosophies.
